275 Main Street  
North Vernon, IN 47265

##### PROJECT COMPLETION DATES

1998

*Sanitary Sewer Rehabilitation*

*Sanitary Sewer Rehabilitation*

### PROJECT DESCRIPTION

FPBH, Inc. participated in numerous Sanitary Sewer Rehabilitation projects for the City of North Vernon, which included innovative technological solutions such as pipe bursting & slip lining to solve inflow and infiltration, and structural problems.

Initial project stages included accurate mapping and field measurements of existing drainage basin systems, since prior maps had only been "stick" maps produced from employee memory. After areas of concern were identified, FPBH helped the City establish individual projects, then designed, advertised, assisted with letting, performed the construction inspection and record keeping.

Projects were funded through local methods, grants, bonding and loans.
